Charter E-Reporting Pilot Program

Spend more time being a waterman and less time reporting.

Attend an upcoming event to learn more!

Each meeting will be held from 5-7 p.m.

Cambridge
Dorchester County Central Library
Nov. 4

Annapolis
Tawes Bldg. Conf. Rm. C1
Nov. 13

Centerville
Queen Anne's County Library
Nov. 26

Prince Frederick
Calvert County Library Mtg. Rm. 2
Dec. 5

More timely, accountable harvest reporting!
More accurate accounting of discards!

Accurate catch reporting and hailing by the charter fishing industry is pivotal to better management of Maryland’s fisheries.

E-Reporting with FACTS™ will allow charter captains in Maryland’s Chesapeake Bay and tributaries to submit harvest reports directly to the Maryland Department of Natural Resources electronically on the day of harvest. The FACTS™ mobile web application will allow the license holders to have 24/7 access to all of their harvest records, provide fisheries managers real-time harvest information, and could help to manage your business. You can report on your desktop, tablet, smart phone, or through the call center.

For more information, contact the program coordinator,
Stephanie Richards, FisheriesEReporting.DNR@maryland.gov or call 410-260-8314.
